

Felting Unit Assessment

1. Is far below objective
2. Does not meet the objective
3. Needs improvement to meet objective
4. Meets objective
5. Exceeds objective

Wet Felting:

1. Understands of the process of wet felting by creating a flat piece of felt.
2. Experimented with the process of wet felting by creating a dynamic piece that explores combinations of texture, thickness, color, material, shape, and uniformity.

Needle Felting:

3. Understands of the process of needle felting by creating a composition with felt that is sufficiently adhered to the base felt.
4. Utilized the principals and elements of design in creating a compelling composition of wool lines, forms, and colors.

Three Dimensional Felting:

5. Experimented with either spheres and cords or felting with a resist.
6. Displays of a growing understanding of the felting process.

Felt Amulet:

7. Demonstrates an understanding of the felting process by utilizing at least two methods taught in the unit (wet felting, needle felting, felting around a resist, and creating felt spheres or cords), in the creation of a personal felt amulet.
8. Demonstrates creativity (originality of idea or process, risk-taking or unusual and diverse solution to the problem).
9. Explains and discusses creative choices.
10. Demonstrates skill in handling composition and form, (utilizes elements and principles of art and design).

Scoring:

20% Wet Felting

20% Needle Felting

20% Three Dimensional Felt

40% Felt Amulet
